Alltech® COPPENS

DEDICATED TO YOUR PERFORMANCE

AQUATE™

Innovative premix in all **Alltech Coppens'** feeds.

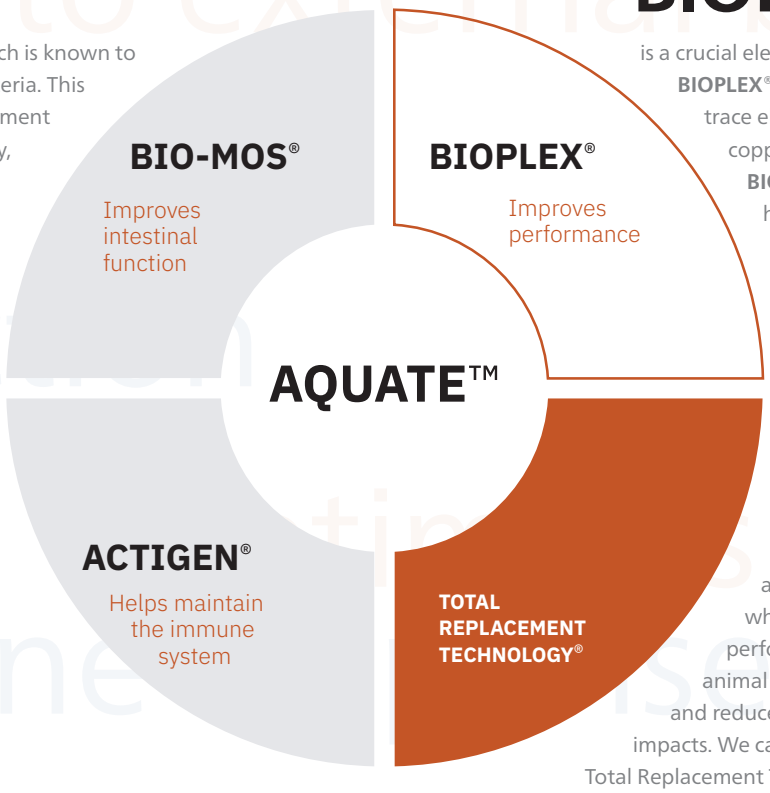
- Optimizes growth
- Supports immune response
- Optimizes digestive function
- Contributes to mucous barrier protection
- Contributes to external barrier protection

BIO-MOS®

is a mannan-oligosaccharide, which is known to bind and drain opportunistic bacteria. This can result in a significant improvement of the intestinal flora. Additionally, it can improve the structure and length of the microvilli in the gut through which the nutrient intake can increase. **BIO-MOS®** contributes to mucous barrier protection.

ACTIGEN®

is derived from yeast cell walls and supports the fish's immune response. **Actigen®** furthermore optimizes growth in fish.



BIOPLEX®

is a crucial element in our new premix. **BIOPLEX®** are organically bound trace elements such as zinc, copper, manganese & iron. With **BIOPLEX®** we can improve the health, growth & performance of the fish.

Break with tradition and feed your animals the modern way.

Alltech has proven that chelated trace minerals in the form of Bioplex® and Sel-Plex® can be included at significantly lower levels while improving animal performance. This optimizes animal mineral requirements and reduces negative environmental impacts. We call this innovation Alltech's Total Replacement Technology™ (TRT).

PREMIUM CARP

- Packed with attractants
- High in animal protein

COMPOSITION:

Analyses (%)		Sizes
Protein	30	3.0 mm
Fat	5	4.5 mm
Crude fibre	1,2	6.0 mm
Ash	13,1	8.0 mm

Vitamins added	
Vitamin A (IE/kg)	10000

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

These pellets do not fill up the carp and coarse fish quickly. Premium Carp is also very good for winter fishing due to the low oil content. It can be used as a standalone feed pellet or mixed with ground bait, enabling it to be offered in a feeder for extra attraction.
Another possibility is to offer the Premium Carp close to your bait in PVA bags (quick-dissolving polyvinyl alcohol mesh).
