2026 - 2027

AQUARIUM

A tank of beautiful freshwater and saltwater fish creates the look of many a living room, restaurant, and company entrance hall.

S — Sinking feed

F — Floating feed

SF — Semi-floating feed

Prebiotic and/or probiotic

Strengthens the colour of the fish

Highly attractive feed

Alltech® COPPENS

DEDICATED TO YOUR PERFORMANCE

AQUATE™

Innovative premix in all **Alltech Coppens'** feeds.

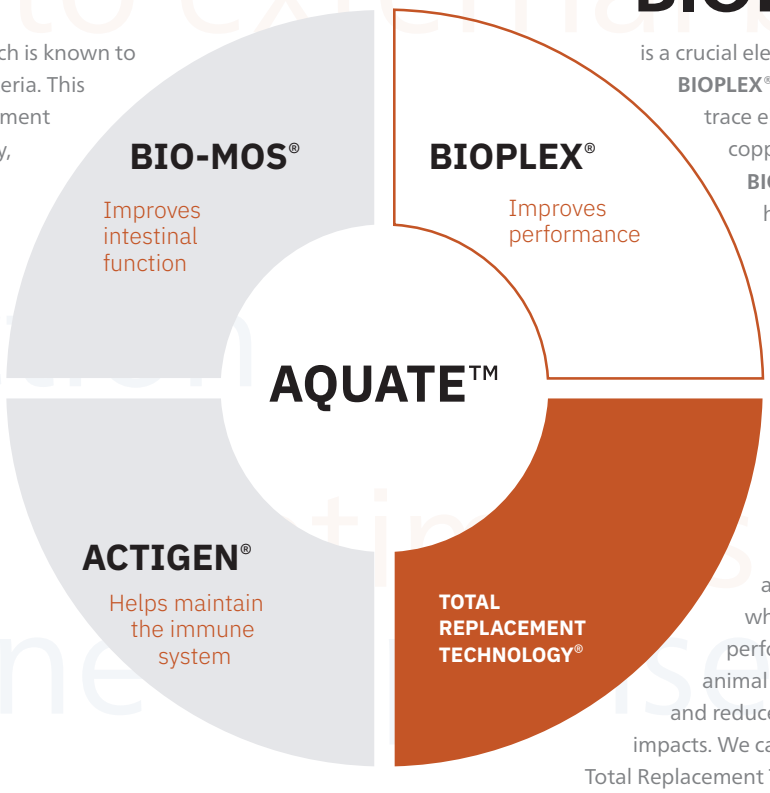
- Optimizes growth
- Supports immune response
- Optimizes digestive function
- Contributes to mucous barrier protection
- Contributes to external barrier protection

BIO-MOS®

is a mannan-oligosaccharide, which is known to bind and drain opportunistic bacteria. This can result in a significant improvement of the intestinal flora. Additionally, it can improve the structure and length of the microvilli in the gut through which the nutrient intake can increase. **BIO-MOS®** contributes to mucous barrier protection.

ACTIGEN®

is derived from yeast cell walls and supports the fish's immune response. **Actigen®** furthermore optimizes growth in fish.



BIOPLEX®

is a crucial element in our new premix. **BIOPLEX®** are organically bound trace elements such as zinc, copper, manganese & iron. With **BIOPLEX®** we can improve the health, growth & performance of the fish.

Break with tradition and feed your animals the modern way.

Alltech has proven that chelated trace minerals in the form of Bioplex® and Sel-Plex® can be included at significantly lower levels while improving animal performance. This optimizes animal mineral requirements and reduces negative environmental impacts. We call this innovation Alltech's Total Replacement Technology™ (TRT).

Alltech® COPPENS

Alltech® COPPENS

ADVANCE

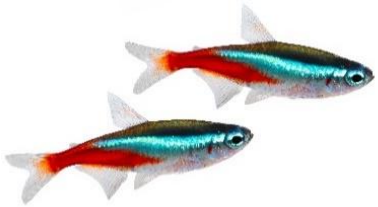
- High performance
- Low pollution

COMPOSITION:

Analyses (%)		Sizes
Protein	56	0.2-0.3 mm
Fat	15	0.3-0.5 mm
Crude fibre	0,3	0.5-0.8 mm
Ash	10,5	

Vitamins added
Vitamin A (IE/kg)

PERFECT FOR FEEDING AMONG OTHERS:



APPLICATION:

Advance is a proven, all-around aquarium feed that meets the nutritional needs of fish. Also available in smaller sizes as granules and larger sizes as pellets, Advance is highly suitable for all sizes of aquariums and growing fish.

* Feed 2-3 times per day in small portions. Feed as much the fish can eat in 20 – 30 seconds.

The values of the nutrients and vitamins are from the time of writing.
These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

11-2026

Alltech® COPPENS

SPIRULINA GRANULATE

- Highly digestible
- Low pollution
- Contains spirulina and astaxanthin
- Includes a prebiotic fibre

COMPOSITION:

Analyses (%)		Sizes
Protein	37	0.5-0.8 mm
Fat	7	0.8-1.5 mm
Crude fibre	0,9	
Ash	12,2	
Astaxanthin (mg/kg)	70	

Vitamins added	
Vitamin A (IE/kg)	12000

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

This diet is an algae-rich complete granulated diet for tropical ornamental fish species. It contains all the nutritional elements required by plant- and algae-eating fish like ancistrus, otocinclus, black mollys and certain shrimp species. Spirulina Granulate contains a rich mix of multivitamins and provides essential amino acids, Omega-3 fatty acids and carotenoids like astaxanthin. Carotenoids are responsible for the colours of ornamental fish.

* Feed 2-3 times per day in small portions. Feed as much the fish can eat in 20 – 30 seconds.

The values of the nutrients and vitamins are from the time of writing.
These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

11-2026

Alltech® COPPENS

INTENSIV

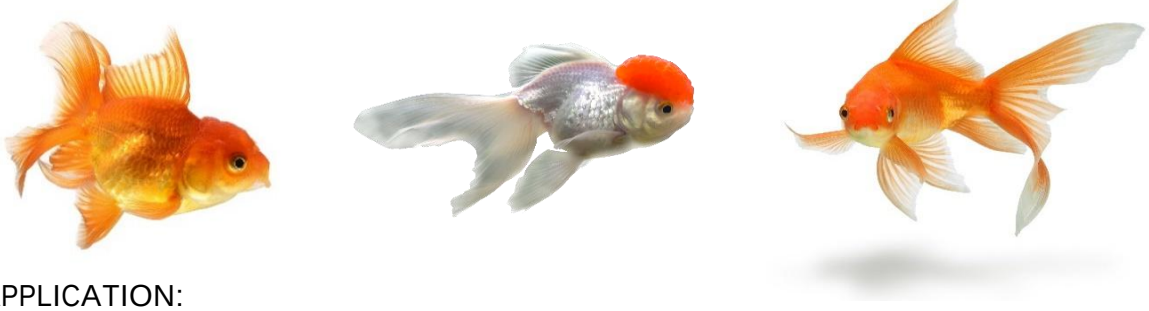
- Highly digestible
- Low pollution

COMPOSITION:

Analyses (%)		Sizes
Protein	40	1.5 mm
Fat	10	
Crude fibre	1,2	
Ash	7,3	

Vitamins added	
Vitamin A (IE/kg)	13333

PERFECT FOR FEEDING AMONG OTHERS:



APPLICATION:

This complete extruded sinking pellet is specially developed for fantails, oranda, ranchu and others (fantails often have difficulties with eating floating feed). Intensiv contains very palatable nutritious ingredients that suit the omnivorous lifestyle of these species and are also easily digested in cold water.

* Feed 2-3 times per day in small portions. Feed as much the fish can eat in 20 – 30 seconds.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

11-2026

STAR ALEVIN

- Highly digestible
- Low pollution
- High water stability
- Highly palatable
- Rich in essential amino acids

COMPOSITION:

Analyses (%)		Sizes
Protein	54	2.0 mm
Fat	15,0	
Crude fibre	0,5	
Ash	7,0	

Vitamins added	
Vitamin A (IE/kg)	11667

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Star Alevin is a complete extruded sinking feed for tropical catfish species like the corydoras family. On the bottom, the catfish can eat the pellets leisurely. Star Alevin contains all the ingredients, vitamins, minerals and essential amino and fatty acids necessary for good growth and development and good health.

* Feed 2-3 times per day in small portions. Feed as much the fish can eat in 20 – 30 seconds.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

11-2026

TROPICAL FLAKES

- High in protein
- High in vitamin C
- Balanced amino acid and fatty acid profile

COMPOSITION:

Analyses (%)	
Protein	43
Fat	6
Crude fibre	3,0
Ash	7,0

Vitamins added	
Vitamin A (IE/kg)	0

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

As the name suggests, these flakes are a complete feed with all the required vitamins and minerals for common tropical ornamental fish. The flakes have a high protein level, balanced amino acid and fatty acid profile. These flakes contain a high level of stable vitamin C to promote good health. Tropical Flakes can be used daily.

* Feed 2-3 times per day in small portions. Feed as much the fish can eat in 20 – 30 seconds.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.
