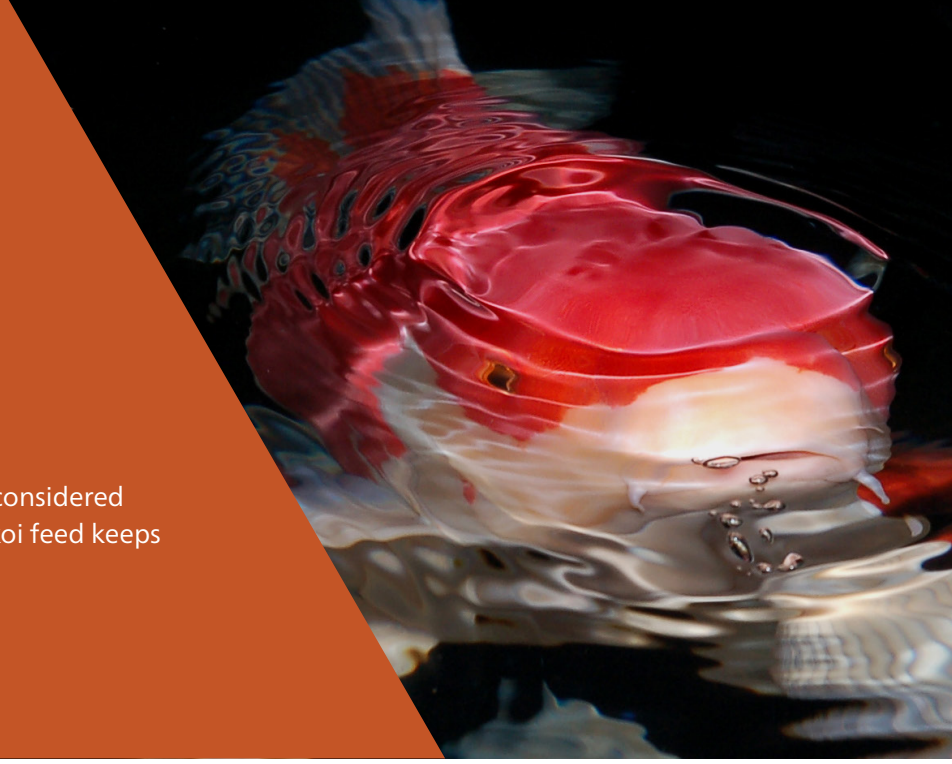
2026 - 2027

KOI

Koi are unique ornamental fish that are considered by many to be living jewels. Our special koi feed keeps your koi looking healthy and attractive.



- Sinking feed
- Floating feed
- Hookable pellets
- Feed pellet
- Contains Actigen®
- Strenghtens the colour of the fish
- Including Montmorillonit (CLAY)
- Flavoured with insect meal

Alltech® COPPENS

DEDICATED TO YOUR PERFORMANCE

AQUATE™

Innovative premix in all **Alltech Coppens'** feeds.

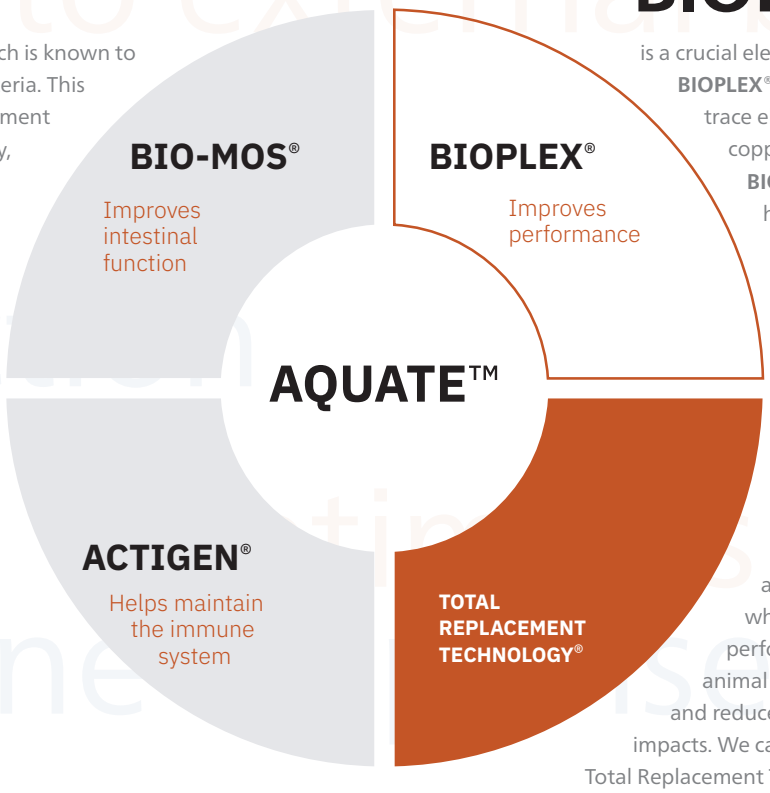
- Optimizes growth
- Supports immune response
- Optimizes digestive function
- Contributes to mucous barrier protection
- Contributes to external barrier protection

BIO-MOS®

is a mannan-oligosaccharide, which is known to bind and drain opportunistic bacteria. This can result in a significant improvement of the intestinal flora. Additionally, it can improve the structure and length of the microvilli in the gut through which the nutrient intake can increase. **BIO-MOS®** contributes to mucous barrier protection.

ACTIGEN®

is derived from yeast cell walls and supports the fish's immune response. **Actigen®** furthermore optimizes growth in fish.



BIOPLEX®

is a crucial element in our new premix. **BIOPLEX®** are organically bound trace elements such as zinc, copper, manganese & iron. With **BIOPLEX®** we can improve the health, growth & performance of the fish.

Break with tradition and feed your animals the modern way.

Alltech has proven that chelated trace minerals in the form of Bioplex® and Sel-Plex® can be included at significantly lower levels while improving animal performance. This optimizes animal mineral requirements and reduces negative environmental impacts. We call this innovation Alltech's Total Replacement Technology™ (TRT).

Alltech® COPPENS

Alltech® COPPENS

STAPLE

- Low energy level for perfect body shape
- With spirulina
- Can be fed all year round

COMPOSITION:

Analyses (%)		Sizes
Protein	31	3.0 mm
Fat	5	6.0 mm
Crude fibre	1,7	
Ash	10,5	

Vitamins added	
Vitamin A (IE/kg)	12000

PERFECT FOR FEEDING ALL KOI:

APPLICATION:

Staple is a complete floating diet for koi. Highly digestible ingredients make Staple a perfect diet for daily use. The nutritional balance keeps your koi in good condition. Because it is a water-stable floating feed, you can easily observe your fish's eating behaviour and minimise water pollution.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.
Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 ºC koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 ºC.

The values of the nutrients and vitamins are from the time of writing.

11-2026

Alltech® COPPENS

GROWER

- High protein level for growth
- Correct protein and energy level to retain good shape
- Rich in essential amino acids
- Highly palatable

COMPOSITION:

Analyses (%)		Sizes
Protein	44	3.0 mm
Fat	11	6.0 mm
Crude fibre	1,4	
Ash	12,6	

Vitamins added	
Vitamin A (IE/kg)	11999

PERFECT FOR FEEDING ALL KOI:

APPLICATION:

Grower is a complete floating grower feed with a higher protein level to promote growth. The right protein/energy (P/E) ratio not only gives good growth and muscle development but also helps maintain the right shape. You can use Grower to grow show koi to large sizes.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.
Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 ºC koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 ºC.

Alltech® COPPENS

WHEAT GERM

- Ideal in cooler water due to a high wheat germ level
- Highly digestible
- Includes a prebiotic fibre
- Supports a high vitality

COMPOSITION:

Analyses (%)		Sizes
Protein	37	3.0 mm
Fat	7	6.0 mm
Crude fibre	1,1	
Ash	8,1	

Vitamins added	
Vitamin A (IE/kg)	12000

PERFECT FOR FEEDING ALL KOI:

APPLICATION:

Wheat Germ is a premium condition feed to keep your koi in good condition throughout the year. Thanks to the high level of wheat germ, this diet is rich in vitamin E, essential fatty acids and minerals and is highly digestible. Especially when the water temperatures drop (below 15 °C), many koi keepers choose Wheat Germ as this diet performs well also under these conditions. Furthermore, Wheat Germ does not contain any carotenoids, so it is ideal for koi that should not receive any pigments at all for an optimal contrasting colouration.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.
Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.

Alltech® COPPENS

ORANGE

- High in protein
- Contains astaxanthin
- Includes a prebiotic fibre
- Includes krill

COMPOSITION:

Analyses (%)		Sizes
Protein	45	3.0 mm
Fat	7	6.0 mm
Crude fibre	1,0	
Ash	13,2	
Astaxanthin (mg/kg)	10	

Vitamins added	
Vitamin A (IE/kg)	12000

PERFECT FOR FEEDING ALL KOI:

APPLICATION:

Orange is a premium grower for koi, with carotenoids for colour intensification. This diet contains krill meal to make it extra attractive to koi and promotes a good feed intake.
It also contains a prebiotic and BIO-MOS®. The prebiotic serves as a food source for the positive microflora in the gut. BIO-MOS® binds opportunistic bacteria and optimises digestive function. This supports a good intestinal balance.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.
Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 ºC koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 ºC.

11-2026

Alltech® COPPENS

SPIRULINA

- Contains spirulina and astaxanthin

COMPOSITION:

Analyses (%)		Sizes
Protein	37	3.0 mm
Fat	7	6.0 mm
Crude fibre	0,9	
Ash	12,2	
Astaxanthin (mg/kg)	70	

Vitamins added	
Vitamin A (IE/kg)	12000

PERFECT FOR FEEDING ALL KOI:

APPLICATION:

For deep and especially intense colours in koi, you can use our Spirulina diet. This carotenoid-rich feed can be used in preparation for shows and contests. Because the white parts may discolour slightly, it is advised to switch to Wheat Germ in the last month to make the white pure white again.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.
Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 ºC koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 ºC.

11-2026

KOI MIX OSW

- Contains spirulina and astaxanthin
- Includes a prebiotic fibre
- Contains wheat germ

COMPOSITION:

Analyses (%)		Sizes
Protein	40	3.0 mm
Fat	7	6.0 mm
Crude fibre	1,0	
Ash	11,1	
Astaxanthin (mg/kg)	27	

Vitamins added	
Vitamin A (IE/kg)	12002

PERFECT FOR FEEDING ALL KOI:

APPLICATION:

Koi Mix OSW is a luxurious mix of three premium koi feeds. We have united all the best elements of our Orange, Spirulina and Wheat Germ in one mix. Thanks to this combination, Koi Mix OSW is rich in essential Omega-3 fatty acids, carotenoids and vitamin E and contains a natural prebiotic.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.
Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 ºC koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 ºC.

11-2026

TOP KOI BOOST

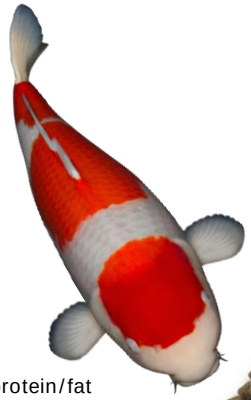
- This feed is a flagship of our koi assortment
- High protein level and low pollution
- Contains spirulina and astaxanthin
- Includes a prebiotic fibre

COMPOSITION:

Analyses (%)		Sizes
Protein	49	3.0 mm
Fat	8	6.0 mm
Crude fibre	0,8	
Ash	11,1	
Astaxanthin (mg/kg)	20	

Vitamins added	
Vitamin A (IE/kg)	16964

PERFECT FOR FEEDING ALL KOI:



APPLICATION:

Top Koi Boost is our number 1 professional feed for koi. The protein/fat ratio is balanced to maximize the growth of your koi and simultaneously keep them in perfect shape. We included BIO-MOS® to keep your koi in excellent health and top condition. This is especially important for show koi as they age. Furthermore, it contains astaxanthin and spirulina to support the colours of your koi. Top Koi Boost is also fortified with a prebiotic and enhanced with our Boost concept, which supports gill health. Top Koi Boost can be fed year-round.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.
Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 ºC koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 ºC.
