

2023 - 2024

ANGLING

We supply leading angling feeds both for professional anglers as well as enthusiastic hobbyists.
Happy fishing!

Sinking feed

Floating feed

Hookable pellets

Feed pellet

Highly attractive feed

Ground bait

Water stability

Flavoured with insect meal

Alltech® COPPENS

DEDICATED TO **YOUR** PERFORMANCE

AQUATE™

Innovative premix in all **Alltech Coppens'** feeds.

- + Optimizes growth
- + Supports immune response
- + Optimizes digestive function
- + Contributes to mucous barrier protection
- + Contributes to external barrier protection

BIO-MOS®

is a mannan-oligosaccharide, which is known to bind and drain opportunistic bacteria. This can result in a significant improvement of the intestinal flora. Additionally, it can improve the structure and length of the microvilli in the gut through which the nutrient intake can increase. **BIO-MOS®** contributes to mucous barrier protection.

BIO-MOS®

Improves intestinal function

BIOPLEX®

is a crucial element in our new premix.

BIOPLEX® are organically bound trace elements such as zinc, copper, manganese & iron. With **BIOPLEX®** we can improve the health, growth & performance of the fish.

BIOPLEX®

Improves performance

ACTIGEN®

is derived from yeast cell walls and supports the fish's immune response. **Actigen®** furthermore optimizes growth in fish.

ACTIGEN®

Helps maintain the immune system

AQUATE™

TOTAL REPLACEMENT TECHNOLOGY®

Break with tradition and feed your animals the modern way.
Alltech has proven that chelated trace minerals in the form of Bioplex® and Sel-Plex® can be included at significantly lower levels while improving animal performance. This optimizes animal mineral requirements and reduces negative environmental impacts. We call this innovation Alltech's Total Replacement Technology™ (TRT).

Alltech® COPPENS

- High performance
- Rubbery structure after soaking/pumping

COMPOSITION:

Analyses (%)

Protein	37
Fat	7
Crude fibre	1,7
Ash	5,8

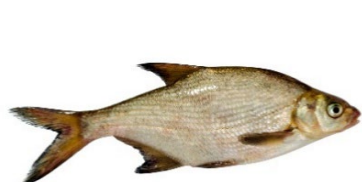

Sizes

4.5 mm
6.0 mm

Vitamins added

Vitamin A (IE/kg)	4998
-------------------	------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

These pumped or soaked pellets are rubbery enough to stay on the hook for a long period and yet soft enough to pull out the hook when tightening into a fish.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

- Predrilled hookable pellet
- Highly water stable
- Packed with attractants
- High in fish oil

BLACK HALIBUT

COMPOSITION:

Analyses (%)	8.0 mm	14.0 / 20.0 mm
Protein	33	33
Fat	18	18
Crude fibre	1,5	1,4
Ash	8,3	5,2

Vitamins added

Vitamin A (IE/kg)	5000	5211
-------------------	------	------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

This unique smelling and tasting bait is highly water stable, making it possible to fish with the same bait for a very long time without small fish eating it. Its natural flavour leaks into the water, giving both an instant and lasting effect. The Black Halibut is specially designed for use with hair rigs.

The values of the nutrients and vitamins are from the time of writing.
These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.
For the exact values we refer to the label.

- Predrilled hookable pellet
- Extremely water stable
- High in fish oil
- Includes krill
- Packed with attractants

RED HALIBUT

COMPOSITION:

Analyses (%) 8.0 / 14.0 / 20.0 mm

Protein	32
Fat	13
Crude fibre	2,1
Ash	2,2

Vitamins added

Vitamin A (IE/kg)	4999
-------------------	------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

This drilled bait contains several attractants that make this product very enticing and palatable with a long-lasting effect. The Red Halibut is an ideal bait for specimen hunters for carp, catfish and barbel. Like the Black Halibut, this Red Halibut is very water stable and can be used for a long period of time.

The values of the nutrients and vitamins are from the time of writing.
These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.
For the exact values we refer to the label.

- Packed with attractants
- High performance

COMPOSITION:

Analyses (%)	1.5/2.0 mm	3.0 mm	4.5 - 9.0 mm	Sizes
Protein	40	40	40	1.5 mm
Fat	10	10	10	2.0 mm
Crude fibre	1,2	2,4	2,5	4.5 mm
Ash	7,8	9,6	10,8	6.0 mm
				9.0 mm

Vitamins added

Vitamin A (IE/kg)	13334	10000,3
-------------------	-------	---------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Our Intensiv can be mixed with ground bait and also offered in a feeder for extra attraction.

Another possibility is to offer these pellets on their own, whereby small amounts are frequently fed to keep the fish in the swim. In fisheries where only small amounts of feed can be provided, Intensiv offers many particles per weight unit.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

- Balanced amino acid and fatty acid profile
- Highly water stable
- Packed with attractants
- Includes krill

PREMIUM COARSE

COMPOSITION:

Analyses (%)

Protein	30
Fat	9
Crude fibre	1,6
Ash	7,4

Sizes

2.0 mm
4.5 mm
6.0 mm
8.0 mm

Vitamins added

Vitamin A (IE/kg)	10001
-------------------	-------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

This feed pellet is designed for modern tactics like method fishing, which requires pellets that, when prepared, are sticky enough to mould around the feeder and withstand casting. Once in the water, the pellets slowly expand and fall away from the feeder, exposing the hook bait.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

- Packed with attractants
- High in animal protein

PREMIUM CARP

COMPOSITION:

Analyses (%)

Protein	30
Fat	5
Crude fibre	2,3
Ash	12,3

Sizes

3.0 mm
4.5 mm
6.0 mm
8.0 mm

Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

These pellets do not fill up the carp and coarse fish quickly. Premium Carp is also very good for winter fishing due to the low oil content. It can be used as a standalone feed pellet or mixed with ground bait, enabling it to be offered in a feeder for extra attraction.

Another possibility is to offer the Premium Carp close to your bait in PVA bags (quick-dissolving polyvinyl alcohol mesh).

The values of the nutrients and vitamins are from the time of writing.
These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.
For the exact values we refer to the label.

- Packed with attractants
- High in animal protein
- Highly water stable
- Selects out the biggest fish

COMPOSITION:

Analyses (%)

Protein	36
Fat	14
Crude fibre	1,4
Ash	4,5

Sizes

28.0 mm

Vitamins added

Vitamin A (IE/kg)	5000
-------------------	------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Giant is developed for big carp and catfish. Regular feeding in the selected area helps to keep the fish close. The size singles out bigger fish. Besides the size, it is the highly attractive ingredients that stimulate a feeding response.

The values of the nutrients and vitamins are from the time of writing.

For the exact values we refer to the label.

- Packed with attractants
- High in animal protein

COMPOSITION:

Analyses (%)

Protein	32
Fat	15
Crude fibre	2,4
Ash	9,5

Sizes

2.0 mm
3.0 mm
4.5 mm
6.0 mm
8.0 mm
14.0 mm
20.0 mm

Vitamins added

Vitamin A (IE/kg)	10002
-------------------	-------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Our Premium Select pellets are unique feed pellets whose enticement goes beyond carp and catfish and are therefore available in many sizes to suit almost any type of fishing.

Also, Premium Select can be fed as standalone feed pellets or added to ground bait. To increase attraction, the pellets can be offered in a feeder or PVA bags close to your bait.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

- Packed with attractants
- Includes krill

COMPOSITION:

Analyses (%)

Protein	30
Fat	13
Crude fibre	1,9
Ash	5,3

Sizes

2.0 mm
4.5 mm
6.0 mm

Vitamins added

Vitamin A (IE/kg)	4999
-------------------	------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Krill meal in combination with marine fish oil makes Red Premium Select extremely attractive to freshwater fish. There are various options in how to use these pellets. They can be standalone feed pellets, added to ground bait or offered in PVA bags.

The values of the nutrients and vitamins are from the time of writing.
These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.
For the exact values we refer to the label.

- High in animal protein
- Packed with attractants
- All purpose feed pellet

COMPOSITION:

Analyses (%)

Protein	30
Fat	9
Crude fibre	2,5
Ash	4,6

Sizes

4.5 mm
8.0 mm

Vitamins added

Vitamin A (IE/kg)	5003
-------------------	------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Base is our feed pellet suitable for all coarse fish species and carp. Base can be used standalone or added to ground bait. These pellets can also be offered in feeders or PVA bags. For more information, please visit our website or contact your Sales/Export Manager.
