PERFECT FOR CATCHING AMONG OTHERS:

APPLICATION:

Vital is a nutrient-rich complete granulated diet for all common smaller tropical fish. Vital partially sinks, with different velocities, while the other part temporarily floats on the surface. In this way, the fish can easily take up the granules. This granulate is suitable for tetras, guppies and other smaller tropical species.

* Feed 2-3 times per day in small portions. Feed as much the fish can eat in 20 – 30 seconds.
