EEL

Eels are very picky eaters. By using the best possible raw materials and techniques we offer a “extremely” constant and palatable eel feed. Resulting in low feed conversions and higher fish yields from your system.

AQUATE™

Innovative premix in all **Alltech Coppens'** feeds.

- + Optimizes growth
- + Supports immune response
- + Optimizes digestive function
- + Contributes to mucous barrier protection
- + Contributes to external barrier protection

BIO-MOS®

is a mannan-oligosaccharide, which is known to bind and drain opportunistic bacteria. This can result in a significant improvement of the intestinal flora. Additionally, it can improve the structure and length of the microvilli in the gut through which the nutrient intake can increase. **BIO-MOS®** contributes to mucous barrier protection.

BIO-MOS®

Improves intestinal function

BIOPLEX®

is a crucial element in our new premix.

BIOPLEX® are organically bound trace elements such as zinc, copper, manganese & iron. With **BIOPLEX®** we can improve the health, growth & performance of the fish.

BIOPLEX®

Improves performance

ACTIGEN®

is derived from yeast cell walls and supports the fish's immune response. **Actigen®** furthermore optimizes growth in fish.

ACTIGEN®

Helps maintain the immune system

AQUATE™

TOTAL REPLACEMENT TECHNOLOGY®

Break with tradition and feed your animals the modern way.
Alltech has proven that chelated trace minerals in the form of Bioplex® and Sel-Plex® can be included at significantly lower levels while improving animal performance. This optimizes animal mineral requirements and reduces negative environmental impacts. We call this innovation Alltech's Total Replacement Technology™ (TRT).
