PERFECT FOR FEEDING ALL KOI:

APPLICATION:

Top Koi is our number 1 professional feed for koi. The protein/fat ratio is balanced to maximize the growth of your koi and simultaneously keep them in perfect shape. We included BIO-MOS[®] to keep your koi in excellent health and top condition. This is especially important for show koi as they age. Furthermore, it contains astaxanthin and spirulina to support the colours of your koi.

Top Koi is also fortified with a prebiotic. Feeding advice from 15 °C.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.
