POND

A beautiful garden isn't complete without a pond. Having a pond with colourful fish varieties can give your garden that extra something.

Sinking feed

Prebiotic and/or probiotic

Floating feed

Strengthens the colour of the fish

Semi-floating feed

Highly attractive feed

Flavoured with insect meal

Alltech® COPPENS

DEDICATED TO **YOUR** PERFORMANCE

- Balanced nutrients
- Can be fed all year round
- Low pollution

COMPOSITION:

Analyses (%)

Protein	30
Fat	6,0
Crude fibre	2,8
Ash	7,7

Sizes

3.0 mm
6.0 mm

Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

PERFECT FOR CATCHING AMONG OTHERS:

APPLICATION:

Pond Pellet is a complete feed for ornamental fish. Thanks to its high digestibility, water pollution is minimized and, thus, it helps keep your pond clear. The nutritional values of Pond Pellet meet the requirements of pond fish to keep them in good condition. You can use this diet during the entire season.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

- Highly digestible
- Contains astaxanthin
- Can be fed all year round

Analyses (%)

Protein	32	Sizes	3.0 mm
Fat	5,0		6.0 mm
Crude fibre	3,0		
Ash	9,2		

Vitamins added

Vitamin A (IE/kg)	12000
-------------------	-------

PERFECT FOR CATCHING AMONG OTHERS:

APPLICATION:

Staple is a complete feed for ornamental fish. It contains high-quality ingredients and cereals.

Furthermore, this diet is enriched with natural spirulina.

Because it is a water-stable floating feed, you can observe your fish's eating behaviour easily and water pollution is minimized.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.

The values of the nutrients and vitamins are from the time of writing.

For the exact values we refer to the label.

- Winter feed
- High water stability
- Highly digestible
- Balanced nutrients

COMPOSITION:

Analyses (%)

Protein	30
Fat	9,0
Crude fibre	2,1
Ash	4,7

Sizes

4.5 mm
6.0 mm

Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

PERFECT FOR CATCHING AMONG OTHERS:

APPLICATION:

Premium Coarse is a complete feed specially formulated for use during the winter period. Due to lower water temperatures, the metabolism of the pond fish slows down, and they are not willing to swim to the surface anymore. Therefore, we made Premium Coarse a sinking diet.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.
Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.

The values of the nutrients and vitamins are from the time of writing.

These values can vary due to natural variation in the ingredients. We reserve the right to change our recipe.

For the exact values we refer to the label.

- Packed with attractants
- High in animal protein
- Larger sizes are waterstable up to six hours

COMPOSITION:

Analyses (%)

Protein	34	3.0 mm
Fat	15,0	6.0 mm
Crude fibre	1,4	
Ash	6,8	

Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

PERFECT FOR CATCHING AMONG OTHERS:

APPLICATION:

Premium Select is a sinking, water-stable, complete feed for sturgeon. This feed is based on high-quality ingredients for high digestibility and enables good growth. This feed includes fish proteins, which makes the feed very attractive for sturgeon.

Premium Select contains all necessary vitamins, minerals and trace elements to keep sturgeon healthy and in good condition.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.

The values of the nutrients and vitamins are from the time of writing.
