

- With spirulina
- Contains wheat germ
- Highly digestible

COMPOSITION:

Analyses (%)

Protein	18
Fat	3,2
Crude fibre	2,7
Ash	2,7

Sizes

4.0 mm

Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

PERFECT FOR CATCHING AMONG OTHERS:

APPLICATION:

Colour Mix Light is a new mix of three extra light complete pond feeds. This mix of red, white and green pellets contains palatable, high-quality ingredients, spirulina and wheat germ.

Along with that, Colour Mix Light has a low specific gravity and a lower energy level and can, therefore, be fed to your fish as much as they are willing to eat.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.
