PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Duo Colour is a mix of two complete pond feeds. This mix contains the best of our Astax Pellet and Staple. Thanks to high-quality ingredients, this diet is easily digestible, helping minimize water pollution.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.
